

Carren Joye, author of *Homeschooling More than One Child*, wrote this fantastic book about playgroups. Not only will it guide you on how to start a playgroup, but also gives you help on all the ins and outs of maintaining one. Whether you are looking for an existing playgroup or want to start one of your own, this book will give you the tools to make a successful playgroup for your child.

What I loved the most about this book was the fact that it was packed full of tangible activities and step by step instructions for playgroups. Joye even gives you advice on overcoming problems and including parent interactions. Did I mention there is a list of Internet resources in the back and examples of playgroup fliers to distribute? This book could serve as a guideline to multiple types of playgroups including young children, homeschooling, stay at home Dads and special needs.

So if you have been thinking about starting a playgroup in your area, pick up this book.
